### Background:

Europe Day held on 9 May every year celebrates peace and unity in Europe. The date marks the anniversary of the historical 'Schuman declaration'. The Schuman Declaration states that "Europe will not be made in one go, nor through a comprehensive construction, it will be built by concrete realisations that will first create real solidarity." What began on 9th May 1950, the pooling of steel and coal between France and Germany has evolved into what we today know as the European Union. The European Union is built on the fundamental values of respect for human dignity, freedom, democracy, equality, the rule of law, and respect for human rights.
